

Consultant, International Health & Benefits

Full Time, Chester, NJ office

We are seeking a highly experienced, organized, intelligent, and enthusiastic individual to “train” and develop over a period of several years to become a leader in the field of international employee benefits services.

5+ YEARS OF PRIOR EMPLOYEE BENEFITS EXPERIENCE ARE REQUIRED FOR THIS POSITION. Prior international benefits experience is strongly preferred.

Qualifications include the above criteria as well as the desire to learn, to listen, to travel, to interact with all levels, to be inquisitive and to excel.

The ideal candidate will grow from Associate Consultant to Senior Consultant within our International Health & Benefits practice. The timeframes for accomplishing this will be up to the individual's job performance and demonstrated growth potential. Benefits consulting, customer development, and marketing, as well as select administration and multinational account servicing will be components of the business training.

The primary office location will be New Jersey. A competitive salary plus benefits make up the base compensation package.

This is an opportunity to learn the true fundamentals of international insurance, interact with seasoned international insurance professionals from various international backgrounds and become a recognized specialist in a field with tremendous growth potential yet relatively limited competition.

###

Globex International Group is a leader in the provision of multinational risk management and employee benefits services. We work with more than 50 of the largest regional brokers in North America and interact with 300 agents and brokers in 130 countries worldwide. The North American group collectively is one of the largest producers of insurance premiums in the world. Our ability to identify and exploit trends and opportunities in the global market place enables us to maintain our leadership position and set the pace for continual growth and expansion globally.
